

We all live in a watershed.

Watersheds can have a big impact on the water we drink.

**OUR HOME**

We all need  
clean water to drink.

It is very  
important to take  
good care of our  
watersheds.

We all live  
on land.

The way we treat  
the land in our  
watersheds can  
have a big  
impact on  
the water  
we drink.

Locate your local conservation district  
and see how you can be involved in their  
watershed projects. Visit:
