

Soil and Senses

We use our five senses in the world around us every day. We can discover a lot of things about soil by using our senses. Each of the circles on the right side of this page has the letters to spell a word.

Unscramble the words and use them to fill in the blanks.

I use my sense of _____ to enjoy fresh fruits and vegetables grown in soil.

My sense of _____ lets me know that soil can be many different colors.

I can _____ the earthy scent of soil with my nose.

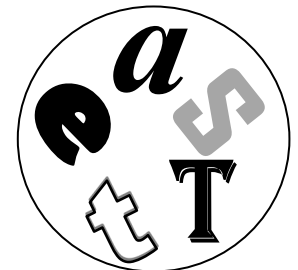

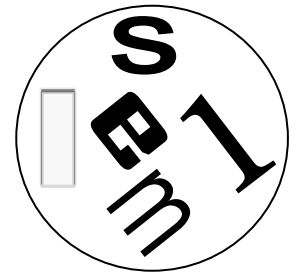

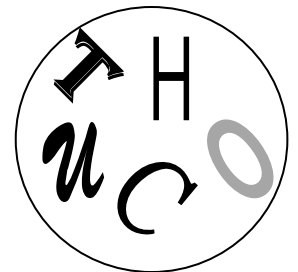

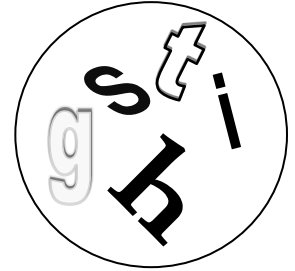

I know that birds sing and squirrels chatter by using my sense of _____.

Birds and squirrels live in trees that grow in soil.

I can use my sense of _____ to feel that soil can be wet, dry, sandy or like clay.
